Dr. Gloria Njau is a dedicated Veterinarian with a focus on continuous improvement. She has great passion with animals that had developed since childhood. She has been involved with animals since the young age of 5 years old inspired greatly by her father who is a renowned veterinarian and her mother a veterinary paraprofessional. Growing up in a vets' family increased her interest in caring for animals and made it possible for her to pursue a Bachelor Degree in Veterinary Medicine in the year 2016 at Sokoine University of Agriculture.

Born and raised in small town called Moshi just under the foothills of Mount Kilimanjaro in the Kilimanjaro region, in a middle-class family of six members that are her parents, two brothers and a sister. Gloria had her elementary school at Kibo Primary, Moshi, she later joined St.Mary's Mazinde Juu, Tanga, for her Ordinary Secondary education and later joined St. Maria Goreti in Moshi, Kilimanjaro for her Advanced level studies. Upon graduating her Secondary education, she successfully joined Sokoine University of Agriculture in Morogoro.

Since 2016, Gloria has been involved with Veterinary practice. Having worked as a Poultry Veterinarian and trainer for two companies; AKM Glitters (2017) and Silverlands Tanzania Company Limited (2018 – 2020). Apart from that, she possesses good laboratory skills and knowledge and has worked as a Laboratory Manager at Silverlands Tanzania for one year, where she also assisted on establishment of the poultry laboratory from scratch.

Currently, Gloria is pursuing her Master's degree in Public Health Pest Management at Sokoine University of Agriculture whereby she is about to complete her dissertation.

Gloria is a firm believer in entrepreneurship and so passionate about her carrier development. Apart from that, her hobbies include travelling to different places and learn different cultures.
